

REMARKS***Pending Claims***

Assuming entry of this amendment, claim 10 is the only one remaining in this application.

Allowable Subject Matter

The applicants thank the Examiner for allowing claim 10.

Claim Rejections

The examiner rejected all the pending claims except claim 10 under 35 USC §103 as being obvious in view of Huang in combination with various secondary references. The applicants still assert that their invention as defined in the now-canceled claims is patentable in view of any or any combination of the cited references, but have canceled claims 1-9 and 11-13 in the interests of more quickly bringing this prosecution to a close and obtaining a patent on at least one aspect of their invention. However, the applicants retain the right, without prejudice, to pursue the now-canceled claims in a continuation application.

Immediate Condition for Allowance

This amendment raises no new issues and makes no changes to allowed claim 10 (the only remaining claim). As such, this amendment places the application in immediate condition for allowance. The applicants therefore respectfully request that the Office promptly issue a Notice of Allowance. Thank you
